Provide information and complete profile

The screenshot shows the LinkedIn onboarding process. The main heading reads "Follow companies, people, and hashtags to stay updated on the things you care about". Below this, a section titled "Follow people and companies to keep up with activity in your industry" displays a grid of profiles. The profiles include:

- Google Software Development (Follow button)
- Archy Gupta Software Engineer at Google (Follow button)
- Monika Pandey HR || Recruitment || Deloitte India (Follow button)
- Khyati Sinha HR Associate at EY India | Ex-Deloitte (Follow button)
- Raj Vikramaditya Engineer @ Google | Founder - takeUforward | YouTuber(400K+) | Ex... (Follow button)
- Ritika Singh Talent Acquisition Specialist at Genpact (Follow button)
- Microsoft Software Development (Follow button)
- IBM IT Services and IT Consulting (Follow button)

Below the grid, a note says "We recommend following 5 sources to find content you care about." A large blue "Finish" button is at the bottom right.

The screenshot shows the LinkedIn feed landing page. The top navigation bar includes "Home", "My Network", "Jobs", "Messaging", "Notifications", "Me", and "For Business". The main content area features a sidebar with user info (Anu undefined), connection suggestions (Grow your network), and a "Get set up on LinkedIn" section with an illustration of a person working at a desk. Below this are sections for "Start a post", "Media", "Event", and "Write article". The main feed area shows a "Recommended for you" section with a profile for Monika Pandey. To the right, there's a "LinkedIn News" sidebar with a list of articles and a "Messaging" sidebar showing a message from "Focused". The bottom of the screen shows the Windows taskbar with various pinned icons.

✓ BRAND NAME: TURBOSONIC

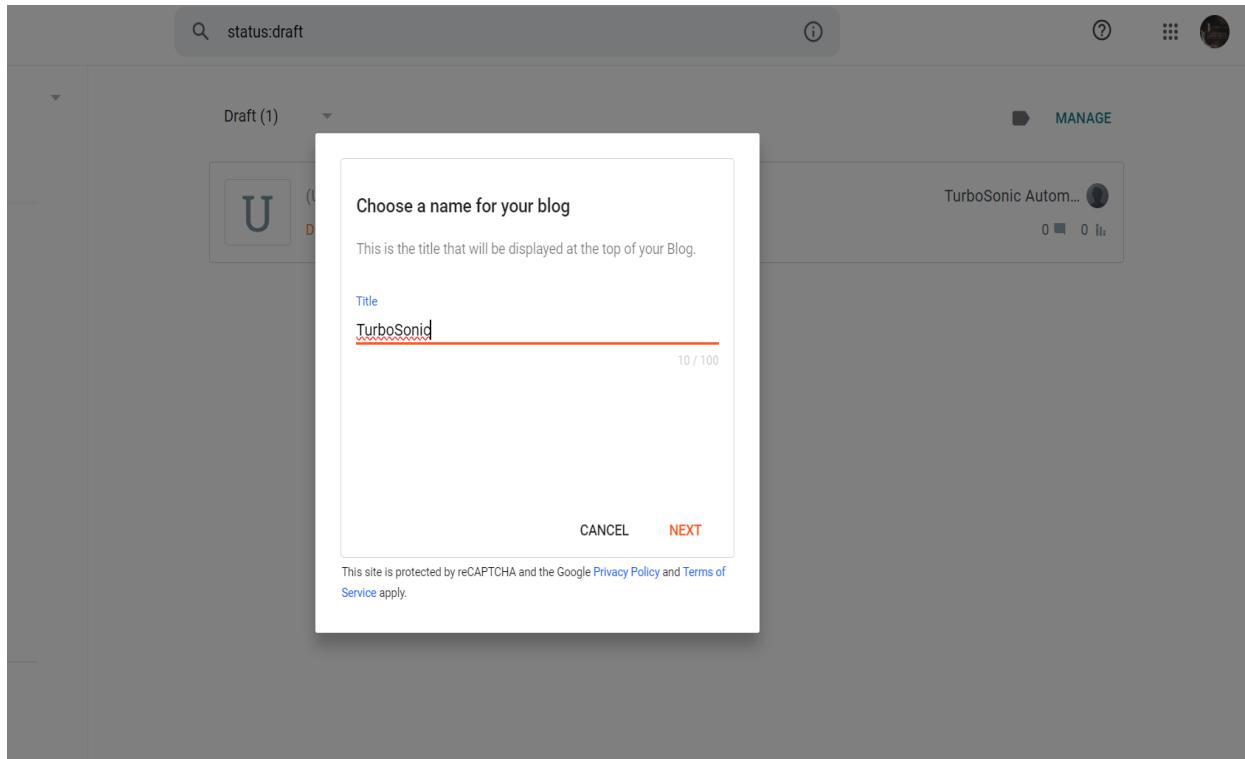

✓ CREATION OF BLOG PAGE:

Blog Url: <https://turbosonicautomobiles.blogspot.com/>

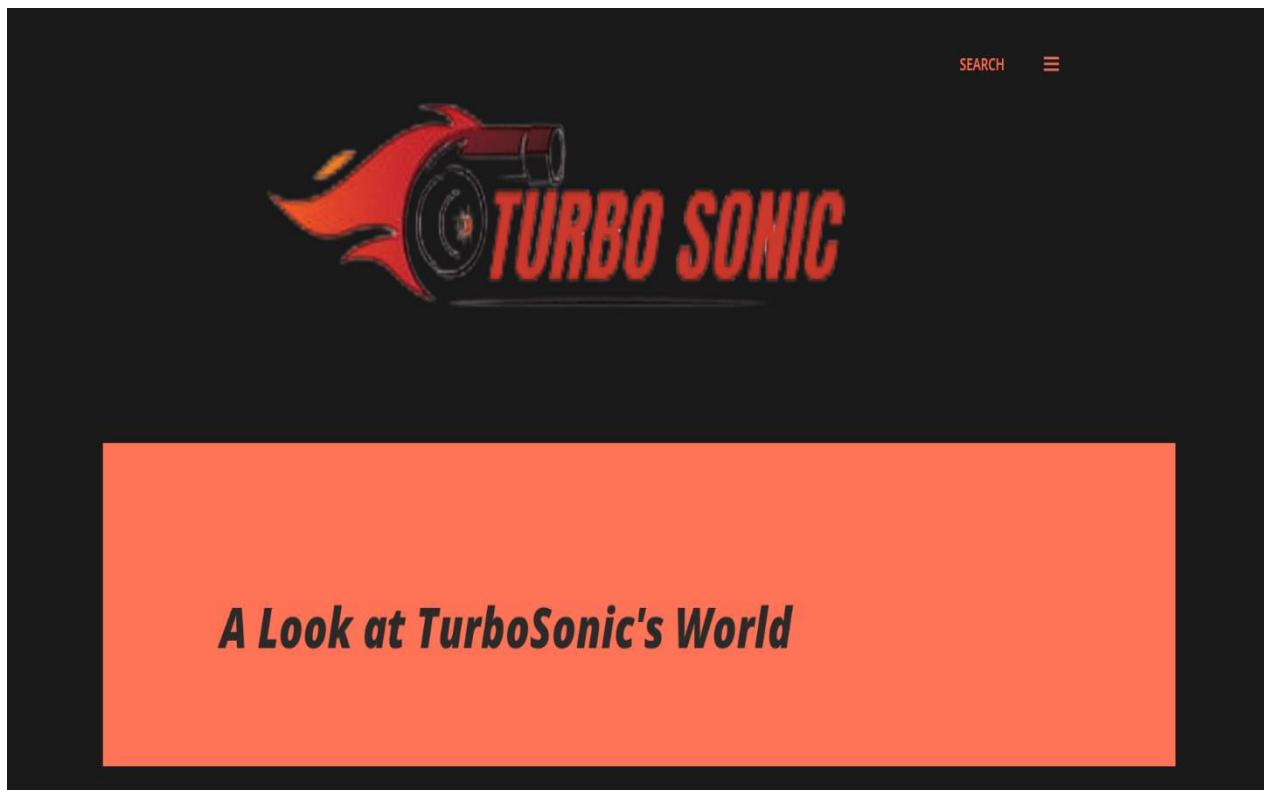

Creation of a blog page starts with providing details and the page is created, then selecting the Layout for a good look on the user side.

The screenshot displays a blog management interface. On the left, a sidebar lists various blog metrics and settings: Posts, Stats, Comments, Earnings, Pages, Layout, Theme (set to 'Notable Coral'), Settings, Reading List, and a 'View blog' link. At the bottom of the sidebar are links for Terms of Service, Privacy, and Content Policy. The main content area shows a preview of a blog post titled 'Here and There' with a thumbnail image of a yellow building. To the right of the preview, there is a 'My Theme' section with a 'CUSTOMIZE' button. Below the preview, three different blog layout options are displayed under the heading 'Contempo', each featuring a different color scheme and design.

Then provide the details required for the profile on the page

Then the blog page is created for TurboSonic.

Then add posts that explain the services that the TurboSonic a company provides automobiles world.

Introduction:

The automobile industry has undergone a remarkable transformation over the years, evolving from rudimentary horseless carriages to high-tech machines equipped with cutting-edge technologies. As we stand at the threshold of a new era, it's an opportune moment to explore the exciting developments that are shaping the future of automobiles.

Electric Vehicles (EVs) Take the Lead

Electric vehicles have emerged as a front-runner in the automobile industry, promising cleaner, more efficient transportation. With advancements in battery technology, EVs now offer longer ranges, faster charging times, and reduced costs. Major automakers are investing heavily in electric vehicle development, and governments worldwide are offering incentives to promote their use.

Connectivity and the Internet of Things (IoT)

Modern automobiles are not just modes of transportation; they are becoming smart, connected devices. The integration of IoT technology allows vehicles to communicate with each other, traffic infrastructure, and even your home. This connectivity enhances safety by providing real-time traffic updates, remote vehicle diagnostics, and even the ability to control certain car functions through smartphones. The possibilities are limitless.

Sustainability and Eco-friendly Materials

The push for sustainability extends beyond the powertrain. Automakers are exploring eco-friendly materials like recycled plastics, sustainable textiles, and even biodegradable car parts.

Preview **Update**

Sustainability and Eco-friendly Materials

The push for sustainability extends beyond the powertrain. Automakers are exploring eco-friendly materials like recycled plastics, sustainable textiles, and even biodegradable car parts. Electric vehicles are not only reducing carbon emissions but also influencing the entire supply chain to become more environmentally responsible.

Rethinking Mobility: Car Sharing and Ride-Hailing

The rise of ride-sharing platforms and car-sharing services is changing the way we view automobile ownership. Younger generations, in particular, are adopting these alternatives to traditional car ownership. This shift in mindset has prompted automakers to explore new business models, including subscription-based services and mobility-as-a-service platforms.

✓ FACEBOOK PAGE:

Facebook page Url:

<https://www.facebook.com/profile.php?id=61550756180663&mibextid=ZbWKwL>

Creation of a Facebook business page for TurboSonic. For that, we create a business profile by giving the required details.

Then we customize the page by providing a profile and banner to attract and increase visitors to the page which is an essential factor to the business.

Thus the page is created successfully after providing access to the notification of updates and invitation marketing promotional emails to the page.

A screenshot of the Turbo Sonic Facebook page. The page header shows the blue circular logo with the text "TURBO SONIC" and "Turbo Sonic" below it. It also shows "0 likes • 1 follower". To the right are buttons for "Message", "Like", and "Search". Below the header is a navigation bar with tabs for "Posts", "About", "Mentions", "Reviews", "Followers", "Photos", and "More". The "Posts" tab is selected. On the left, there's an "Intro" section with a "Page · Advertising/Marketing" link and a "Not yet rated (0 Reviews)" link. On the right, there's a "Posts" section showing one post from "Turbo Sonic" dated "August 21".

This is the Facebook page of TurboSonic Automobiles company.

✓ **INFOGRAPHIC POSTER:**

Infographic Post – Blog Url:

<https://turbosonicautomobiles.blogspot.com/2023/09/infographic.html>

THE WORLD OF AUTOMOBILES

TYPES OF VEHICLES

Passenger Vehicles

Passenger cars, also known as sedans or saloons, are the most common type of vehicle on the road. They are designed primarily for the transportation of passengers and have seating for 2 to 5 people.

SUVs

SUVs are versatile vehicles designed for both on-road and off-road use. They typically have a larger frame, higher ground clearance, and can accommodate more passengers and cargo.

Trucks

Trucks come in various sizes, including light trucks, medium-duty trucks, and heavy-duty trucks. They are designed for the transportation of goods and are commonly used in industries such as logistics and construction.

FUEL TYPES

Gasoline

Gasoline vehicles, also known as petrol vehicles, are powered by internal combustion engines that burn gasoline as fuel. They are the most common type of vehicles on the road today.

Diesel

Diesel vehicles use diesel fuel, which is a heavier and more energy-dense fuel compared to gasoline. Diesel engines operate on a different combustion principle, relying on compression ignition rather than spark ignition.

Electric

Electric vehicles are powered by electricity stored in rechargeable batteries. They produce zero tailpipe emissions, making them an eco-friendly alternative to traditional gasoline or diesel vehicles.

✓ **GOOGLE ANALYTIC MEASUREMENT ID:**
Google analytic measurement ID: G-EBQZXFL3Y5

Visit Google Analytic official page

The screenshot shows the Google Analytics homepage. At the top, there's a navigation bar with icons for search, refresh, and user profile. The URL in the address bar is analytics.google.com/analytics/web/provision/?_gl=1*xjixaq*_ga*MTk2NDE0MDY1LjE2OTg1ODE0MjQ_*_ga_4BXXKZJZTZ*MTY5ODU4MTQyMy4... Below the bar, the word "Analytics" is displayed next to a yellow icon. On the left, a sidebar titled "Complete information" features a sub-section about understanding site and app users. To the right, there are two large icons: one for mobile devices and another for a bar chart. At the bottom of the page, there's a footer with links to "Analytics home", "Terms of Service", and "Privacy Policy", along with a "Send feedback" button. The status bar at the bottom of the browser window shows the date (29-10-2023), time (05:40 PM), and battery level.

Create an account by means of enter details

The screenshot shows the "Create an account" step in the Google Analytics account creation wizard. The wizard has five steps numbered 1 to 5: 1. Account creation, 2. Property creation, 3. Business details, 4. Business objectives, and 5. Data collection. Step 1 is highlighted with a blue circle. The "Account creation" section contains a form for entering account details. The "Account name" field is required and currently contains the value "TurboSonic". Below the form, there's a note stating that accounts can contain more than one measurement ID. At the bottom of the page, there's a footer with links to "Analytics home", "Terms of Service", and "Privacy Policy", along with a "Send feedback" button. The status bar at the bottom of the browser window shows the date (29-10-2023), time (05:42 PM), and battery level.

Create a property

To measure your web and app data, create a Google Analytics 4 property. Each property you create holds all your measurement data for any selection of websites and apps you choose.
